HIGHLIGHTS

- Submitted research to WordPress Security, for which I earned my first CVE (2019).

- Earned a total of 4 CVE for my research affecting multiple versions of Wordpress applications.

- Submitted a research to Apple Security regarding a privacy issue on the iOS Photos app, for which earned me contribution to CVE-2022-32918.

- Maintained personal projects for network penetration tests, network segmentation testing, and web application assessment.

- Tested more than 500 client applications in areas from bug bounty to company work-related.

- Featured in a SecurityWeek article for my Remote Code Execution (RCE) finding on Google Nest (2014).

- Featured on CKEditor version 4.4.6 Security Patch Release for my finding related to XSS.

- Featured on Blesta Security Advisory (CORE-931) for our XSS research on their application.

- Featured on Peerio Technologies Security Update v2.92.0 for my XSS finding on the Peerio Desktop Application.

- Knowledgeable with web application security, network security, and vulnerability assessment and penetration testing (VAPT).

- HackerOne Ambassador World Cup 2024 participant (Team Philippines).

- Bugcrowd Researcher Council member (October 2017 to March 2018).

- Bugcrowd Ambassador (2018).
